

Sinclair Broadcasting' documentary days before the election is a clear example of the need for balance in programming these days. I find this an excellent idea. Sense Mr. Kerry has never made a decision to air a Kerryanswering any questions regarding these and his handlers spew more lies again..this is important news and I hope you will allow them to air it and not succumb to the calls for censorship from some self-proclaimed liberals would have you do.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. Contrary to the large companies that control the airwaves, we need more of the independence this company is displaying for our democracy. Instead of the, it's more important that we see real people liberal agenda so often espoused by the major news org..cbs being a fine example. Sinclair's actions show courage and the freedom needed. Thank you.
